Preface

This document is a full transcription of the *Proceedings of the Adventures* for the period May 1649 to November 1649. The original document is held by the Cambridgeshire Archives in Ely (Reference: KBLC/2/1/1).

The entries are ordered by date and paragraph number for each date. Where possible the original spelling has been retained except in a few cases where the meaning of the word would be hard to distinguish by a modern reader. Modern punctuation has, however, been added to make the text more readable (commas and full stops).

6 The 6th is answered in the former whereby it is resolved to be indifferently sett out through the whole levell, equall with the Adventurers and Participants

7 To the 7th, that hee shall have £300 att present and the residue thereof to bee paid by £20 a month duringe the continuance of the worke

8 To the 8th, that this agreement shall bee entered as an order of the Adventurers and Participants accordinge to the Acte of Parliament which is the best security wee can give and which shall bee forthwith entered as soone as the designe shall be approved by the Earle of Bedford, Lord Chief Justice St John and Mr Henley. And if the Lord Chief Justice St John cannot bee prevayled with to spare to doe it, then to desire the Earl of Arundell to undertake it with the Earle of Bedford and Mr Henley.

19/06/49

7 Sir Cornelius Vermuydens answer of reply to the said answer to the Companie to his demandes

1 If the worke bee done substantially as I intend, expect no lesser charges and your

desired comptrollment would still call out expend not so much, doe not such a worke so great and so substantiall, and perhaps a dry season concurringe, you might have it adjudged and afterwards bee forced (if not proving sufficient for the floodes) to remake it and draw mee to contribute upon pretence of maytenance (besides the discreditt of the worke thereof) excuse mee to become contributory till 90000 bee expended

2 The first part is answered in the former and as to melioration I pretend nothinge therein but for to give direction for the dreyninge in other places, I desire to reserve it to myselfe, in regard you refuse to give mee 4000 acres, upon which I offer it.

3 Upon any proportion of land and where it shall bee, I stand upon my former note in regard it lies most convenient for the rest of my estate and to have not it conveyed accordingly, for I desire no conveyance in toto pro rata, and for not havinge power to dispose of any land, I am contented to bee part 2000 acres five yeares after the adjudication but as to the rest I desire to bee free, although my present resolutions are not to part with any part of it, neither now nor hereafter, but under favour I desire to be master on my owne

[Page 12] 4 I have answered in my note for those taxes will bee requisite to speed the worke for the comon benefitt of all

5 To say it shall bee noe prejudice is no argument and my experience is such that in case you should comptroll, I am sure it will be, and therefore I stand upon your owne offer which is that if in case any worke by you comptrolled prove ineffectuall, yet I should enjoy any recompence not bee charged with those workes

6 Is partly answered in the 3rd and whereas some doe objecte that my proportion will bee better dreynd then the rest, I answer it is possible by reason it lies further from the fall, and further the land is not to bee adjudged but by a whole levell and, therefore, if it bee not a generall dreyninge, I cannot enjoy my proportion

7 I agree to £300 present and the rest to be paid £50 a month

8 I expect to have it under your handes and sealed in due forme of Law as also entered in your booke and this is your owne offer. As for my designe, after wee are agreed I will discover it to the Earle of Bedford and my Lord Chief Justice St John which is needless in regard you take eleaven to comptroll from tyme to tyme although my experience is so well knowne, that under favour, it is frivolous, and I cannot but much wonder that you put mee to replication having heitherto performed your busines so long freely without any stipulations with care travell and charge and with all consideringe that in my desired recompence, I become a joint Adventurer, onely you contribute for mee but 4000 acres and so upon that small advantage I recover your lost estates and gaine to the Comon Wealth a great and vast Country.

Your letter mentions not what debt is already contrActed to the workemen whome the Company expect be forthwith dismissed and they certified hither that order may bee taken for the satisfying of it. And in the meane tyme noe further debt increased or charged upon the Company untill the busines be settled in Parliament and further order from them for it which otherwise [Page 29] they apprehend will be very prejudicial to them. The Company doe not understand by your letter whether £200 you borrowed have cleered all with the workemen or howe much will cleere all with them which they desire to knowe speedily concerninge the £400 accordinge to your desire was furnished the last weeke which they apprehend would have cleered all to the end of that weeke when the order of dismissal was sent. This being all that I had in comand at present I subscribe my selfe.
